BLAND'S BILL VETOED

There Will Be No Coinage of the Silver Seigniorage.

THE PRESIDENT HAS SAID SO.

He Believes the Silver Bullion Seigniorage Might Be Coined Advantageously Provided Proper Authority Is Given the Secretary of the Treasury to Issue Bonds at a Low Rate of Interest.

WASHINGTON, March 30.—The president has vetoed the Bland seigniorage bill, which proposed to coin some 50,000,000 more of silver dollars. The president in his veto message puts it on ground that the bill is loosely drawn and would rob us of our gold.

He says he believes the coining of the bullion seigniorage might be safely and advantageously done, provided authority is given the secretary of the treasury to issue bonds at a low rate of interest. He expresses a hope for a comprehensive adjustment of our monetary affairs in a short time in a way to accord to silver its proper place in our currency.

BLAND EXPLAINS.

Why His Silver Seigniorage Bill Was Vetoed by the President.

WASHINGTON, March 30.—Representative Bland, author of the Bland silver seigniorage bill vetoed yesterday, authorized the following statement concerning the veto and its effect upon the future of silver:

"The main point of the veto is that the president does not wish to infuse into the currency any more silver until he has more bonds and a greater gold reserve. He insists on the fact that has been in progress for the last year, on the one hand by those who wish to increase the bonded debt in the interest of national banks by selling bonds for gold and for money to pay the current expenditures of the government, and on the other hand by the representatives of the people who are opposed to bond issues and in favor of coining the silver bullion, the assets we have on hand, and using this money in the payment of current expenditures.

"The first section of the bill provides for the coining of the bullion held under the Sherman act. That act provides that the bullion shall be coined into standard silver dollars. The Sherman act is not repealed, and hence the president's observations that it is not clear into what kinds of coins the bullion shall be struck is not lawyer-like, as a lawyer would know the bill is a mere supplement to the Sherman act and leaves the bullion to be coined under that act. No friend of the bill in the house or senate has ever considered it as wanting in certainty or requiring any amendment. These criticisms of the bill itself were wholly unnecessary on the part of the president when he gives congress to understand that no bill could possibly be drawn compelling the coining of the silver bullion which would meet his approval.

"A president at all in sympathy with the purposes of the bill would have signed it. College professors may criticize its language, but a man who sprung from the people, like Abraham Lincoln, and representing not the money power, but the interests of the masses, would have signed the bill, although college professors might have stigmatized him as a rail-splitter."

Concerning the future of the silver movement Mr. Bland said: "It is evident that under the single gold standard nothing can be done on the currency question without consulting the few people who own the gold of the world. These people have dictated the veto of this bill. The fight from now on will be whether the people of this country shall control the currency by permitting gold and silver to come to the mint free and thus supply themselves with constitutional money or whether we are to be mere slaves of the owners of gold in Lombard street and Wall street."

IMPORTANT DECISION.

The Union Pacific Not Compelled to Operate a Branch Line.

OMAHA, March 30.—The court holds that the Union Pacific is not compelled to operate the Julesburg branch to Denver, but says the receivers must take into consideration the demands of the public and the conference agree upon some basis by which the people may be properly served. The great bone of contention—the interest question—the court holds that special findings are necessary before a decision can be reached.

Accordingly, William D. Cornish of St. Paul is appointed a special master in chancery to hear the matters in dispute, make accountings and report his findings to the district court of Nebraska. The judges also hold that the federal court for the Nebraska district is the court of primary jurisdiction in matters pertaining to the Union Pacific, instead of applying to Judge Hall. Receiver Trumbull of the Gulf road should come before Judge Dundy.

President Clark's report as arbiter in the wage conference was filed with the circuit court yesterday evening just before Judge Caldwell made his order on the hearing. It is an exhaustive review of the whole case, covering every point in dispute, setting forth the claims of the men and the schedule of the receivers in full. Specific objections to the provisions demanded by the engineers and trainmen are made. There is no coming together on the two points of cutting the wages paid and constructive mileage. Mr. Clark suggests that the matter be referred to an expert railroad man for adjustment. Judge Caldwell decided to hear it.

Threaten to Strike.

DENISON, Tex., March 30.—The coal

miners of Lehigh, Coal Gate and Krebs, I. T., threaten to strike in resistance of the notice given them by the management of a reduction of wages of 5 cents per ton to take effect April 1. The mine owners have to pay the Indians 125 pounds in royalty for every ton mined, therefore the miners are compelled to mine 2,125 pounds for a ton. The miners say they will strike if the cut is enforced. Both sides are holding conferences, but refuse to make public what action they have taken.

DISASTROUS SNOWSLIDE.

Three Families Buried Underneath Hundred of Tons of Snow.

DENVER, March 30.—A special to The News from Spokane, Wash., says: As a result of the snowslides on Canyon creek, in the Coeur d'Alene mountains yesterday, three families, consisting of 12 or 14 persons, are mangled and buried beneath thousands of tons of snow, and any possibility of any of them being rescued alive is out of the question.

Snow had accumulated on the mountains to a depth of fully 60 feet and the late rains caused the huge mass to move at several places. At an early hour yesterday a section of snow 300 feet in length, near the Black Bear mine, became detached and started down the steep mountainside at a terrible pace, and before the inhabitants of the cabins in the path of the slide could flee the mighty avalanche was upon them.

Trees were torn up by the roots, boulders carried along with mighty force, the whole shaking the earth as if an earthquake had occurred. Two families, whose names could not at this writing be learned, together with their homes were caught and carried along with the slide and buried out of sight at the bottom of the canyon. Others unaccounted for are also believed to have been killed.

Soon after the first slide took place another occurred farther up the canyon, near Burke, and here further fatalities occurred.

A family named Chilson, consisting of father, mother and three children, heard the avalanche coming. Picking up the children, the frantic parents attempted to flee to a place of safety, but before they had gone 50 yards they were overtaken by the resistless mass of snow and crushed to death.

BRAZILIAN INSURGENTS.

They Can Find a Refuge in Argentina if They So Desire.

NEW YORK, March 30.—The Herald's Buenos Ayres special says:

The Argentine government has agreed to allow the insurgent refugees from Rio Bay to be landed here from the Portuguese men-of-war which brought them south, if Portugal is ready to assume all the consequences and will relieve Argentina of any responsibility for ignoring Brazil's protest in the matter.

The Portuguese minister here and the warships' commanders are awaiting the decision of the Lisbon foreign office on the proposition, while Admiral Saldaña Da Gama and his fellow rebels are still detained aboard the Mindello and the Albuquerque.

Captain Benjamin Mello, Da Gama's secretary, contradicts the rumors that difference exist between Admirals Da Gama and Mello, and said that the great majority of the fugitives on the Portuguese man-of-war will, when they get ashore, at once start for D. S. territory, to join Mello and carry on the war as vigorously as ever.

Guilt of Embezzlement.

MANSFIELD, March 30.—Ex-Sheriff Leonard Tressel was yesterday found guilty of embezzling \$740 from the Ulrich estate and is now a prisoner in the jail, where a year ago he was jailer. Tressel owes his downfall to cards, women and whisky. A year ago it was learned that he was short about \$4,000 and he was deposed. Afterward four indictments were found against him, on one of which he was tried. He spent his money in Columbus and Toledo gambling houses and brothels. He will be sentenced Saturday.

Would-Be Bridegroom Killed.

RUSSELL, Ky., March 30.—A Miss Van Pelt was to have been married to a young gentleman from Maryland. The prospective groom failed to arrive at the appointed time, and in the evening, a few hours before the ceremony was to have taken place, came a telegram announcing his death as the result of being thrown from a horse the day before.

Carrage Factory Damaged by Fire.

FLINT, Mich., March 30.—The 4-story carriage factory of William A. Patterson was gutted by fire yesterday. It was supposed that the fire had been extinguished, but it broke out anew on the third floor in the paint room. The whole factory was soon in flames. About 100 men are thrown out of employment. The loss on the building and stock will be about \$50,000.

Financial Sensation.

LIMA, O., March 30.—B. C. Fanrot, late president of the Lima National bank, has created a sensation here by issuing a circular letter to the stockholders of the bank, accompanied by a tabulated statement to back up his charges, that he is unable to get an accounting from the government for nearly \$90,000.

Look Out For a Naval Battle.

RIO JANEIRO, March 30.—Peixoto's warships from Montevideo have arrived here and preparation is being made to send them southward with instructions to engage the Republica, Aquidaban and other rebel ships under Mello.

Cotton Mills Burned.

PARIS, Tenn., March 30.—The Chickasaw cotton mills, two miles from this city, burned yesterday. Loss about \$20,000; insurance, \$10,000. The mills employed a large number of hands, who will be thrown out of employment.

QUARANTINING THE PETS.

How Domestic Animals May Spread Contagious Diseases.

NEW YORK, March 30.—The household pets are, according to the German Veterinary Medical association, frequent causes of infection to the public. The association sent a letter to the board of health on the subject. The letter called attention to the fact that dogs and cats are often permitted to remain by the bedside of persons suffering from infectious diseases. The animals are allowed to wander in and out of sick chambers and consequently spread disease among the people. The German Veterinary Medical association petitions the health board to investigate this source of infection. They ask that in cases of contagious or infectious maladies a system of rigid quarantine be observed in connection with domestic pets, and that the animals be put through a thorough process of disinfection.

TWO EMPERORS MEET.

William and Francis Joseph Shake Hands and the Natives Howl.

ABBZIA, March 30.—Emperor Francis Joseph and suite were met on the platform of the Matughe railway station upon their arrival Thursday by Emperor William, who had personally superintended all the arrangements for the reception of the Austrian monarch. Triumphant arches spanned the streets through which the two emperors were to pass, the town was handsomely decorated with bunting and enormous crowds cheered themselves hoarse as the emperors drove by. After reaching the residence prepared for him, Emperor Francis Joseph paid a visit to the Empress of Germany, who presented the young princess. Luncheon was served in the apartments of the empress.

Emperor William has planned to take Emperor Francis Joseph for a sail on his yacht, the Christobel.

Would It Pay to Experiment There?

WASHINGTON, March 30.—Among the appropriations pending before congress there is provision for two agricultural experiment stations in Alaska, one at Sitka and the other in the valley of the Yukon river. When the subject was taken up by the house committee on agriculture, Representative Baker of New Hampshire made a brief speech in opposition to the projects regarding the proposed stations as useless, on the ground that there is practically no tillable land in the territory. The question was not disposed of and will be again considered.

Back in His Cell.

CHICAGO, March 30.—Assassin Prendergast is back in his cell. He returned to it at 6 o'clock yesterday evening, meek as a lamb. Forty-eight hours in the dungeon of Cook county jail was enough for him. He sent for Jailer Morris, and when that official appeared, apologized for his attack upon Guard Johnson. Morris accepted the apology and Prendergast then apologized for remarks made by him in court against Morris and concluded: "Now, Mr. Morris, if any one abuses me, will you punish him as I have been punished?" He was assured of fair treatment and returned to his cell.

Decided to Kill Themselves.

CHICAGO, March 30.—Discouraged by their inability to obtain work, Thomas H. Morgan and his cousin, Edward Court, decided last night to kill themselves. They begged on the streets until they had secured enough money to buy some rat poison and then after swallowing the poison sat down in a doorway to die. Court could not stand the pain, and, jumping up, rushed down the street. Morgan was taken to a hospital by the police, and is dying. Nothing has been heard of his cousin.

One of the Bandits Captured.

GAINESVILLE, Tex., March 30.—At Young's Crossing, I. T., yesterday, a posse of United States officers and a gang of horse thieves had a pitched battle, lasting over an hour and resulting after an exchange of over a hundred Winchester shots, in the wounding and capture of Dick Warren, a cousin of the Dillons, and Will Fletcher, an all-round desperado. There were 15 or 16 in the gang, but the capture of all is considered a near certainty.

Convicted of Murder.

WATERLOO, Ind., March 30.—In Sam Deeters' murder trial the verdict was reached yesterday of guilty of murder in the first degree and imprisonment for life. The jury was out 16 1/2 hours. The trial began Feb. 12 and cost the state \$8,000. Deeters' crime was the murder of Amos Bachtel and his daughter, Mrs. Laura Lowe, on Aug. 31 last, east of this city.

Cremated.

HAMBURG, March 30.—The remains of Hans Von Bulow, the distinguished pianist who died recently in Egypt, were cremated yesterday at the cemetery here. Previous to the cremation there was an imposing funeral service in the church and the remains were preceded to the cemetery by numerous deputations from home and foreign musical societies.

Cigarmakers on a Strike.

CHICAGO, March 30.—Six hundred nonunion cigarmakers employed by E. Vailens & Company went out on a strike yesterday, and the trouble is likely to spread to other cigar manufacturers. The strike was precipitated by the discharge of one man. The strikers demand an equalization of wages, claiming that Spaniards are paid \$18 a thousand, Germans \$12 and Americans less.

LIMA, March 30.—The condition of President Morales Bornudese, who is suffering from intestinal disorder, is critical, and the doctors have resolved upon an operation as the last resource. The last sacrament has been administered to him, as there is little hope of his recovery.

SENATE AND HOUSE.

Proceedings of Both Branches of Congress.

WASHINGTON, March 30.—In the senate after the introduction and reference of several unimportant bills and joint resolutions, Senator Lodge of Massachusetts introduced the following resolution which was agreed to:

RESOLVED, That the secretary of the treasury be directed to furnish the senate with a statement of the cash value determined by the average price of the New York and London markets, of all imports, classified under different heads, from all countries having a depreciated paper currency since June 30, 1893, and also a table showing by months the rate of exchange with those countries.

On motion of Senator Dolph, the senate took up the bill prescribing limitations of time for completion of title to certain lands disposed of under the act of congress, commonly known as the "donation act," and for the protection of purchasers and occupants of the lands which are situated in the states of Washington, Oregon and Idaho. The bill was passed, 40 to 7.

On motion of Senator Gorman, the senate reconsidered the vote by which it agreed to the resolution offered by Mr. Frye calling on the secretary of war for information as to the employment and discharge of workmen employed on works of public improvement for political reasons. No further action was taken on the resolution.

Senator Gorman, in behalf of Senator Brice, reported the pension appropriation bill.

The house joint resolution appropriating \$10,000 additional to carry out the provisions of the Chinese exclusion act was passed.

ANONYMOUS LETTER BILL.

Its Author Says It Is Aimed at the Pension Office in Particular.

WASHINGTON, March 30.—Representative Pigott of Connecticut says concerning his bill against anonymous letters: "The government bureaus and departments are deluged with these anonymous letters. They are aimed at the pension office in particular. Unscrupulous and spiteful persons write to the pension authorities concerning alleged fraud or crookedness in a neighbor's pension. An investigation may be made and the pensioner is put to much trouble, with the prospect of having his pension cut off, without being able to face his anonymous accuser. The same anonymous attacks are made against candidates for office. In one of the departments I found an anonymous letter against a candidate for a federal appointment. The officials said that they did not docket these brief anonymous communications, but filed them to get them out of the way. So the anonymous letter stood in the files to accuse the candidate without an opportunity to face the accuser. I intend to follow up this bill and secure a law for the destruction of all such anonymous communications."

BAD WEATHER AT SEA.

Officers of the Teutonic Report a Remarkably Stormy Passage.

NEW YORK, March 30.—The White Star steamer Teutonic, from Liverpool and Queenstown, has arrived at quarantine after a passage which her officers all unite in saying was one of the most severe in their experience. Sunday morning the wind blew with hurricane force, accompanied by squalls and very high seas. Seamen McComb and Coleman, who had been ordered to secure a ventilator on top of No. 2 house forward, were knocked down by a heavy sea; McComb was picked up in a badly bruised condition, having an arm and leg broken and his breastbone fractured. Coleman had his jaw broken, besides being badly bruised about the body and head. The cabin passengers were all much alarmed; a few of them were thrown down and bruised. One of them named M. Schleifer, slipped on deck and broke his leg. The storm lasted up to Monday night, the wind having gradually shifted to northwest, and ending in a terrific west northwest when it moderated. On Sunday the vessel logged but 344 knots, and on Monday the day's run was only 362 knots.

PAUPER NOBLEMAN

Flees From a Crime to Die Among Strangers.

ST. LOUIS, March 30.—An Austrian nobleman was buried in the potter's field. Descended from an illustrious family and with the secret of a strange crime locked in his breast, Hugo, Baron Von Landon, died without the common necessities of life in this city Wednesday. General Landon, the renowned Austrian warrior who fought against Frederick the Great, was one of the ancestors of the unfortunate man, and a number of other famous Austrians belong to the same genealogical tree. Hugo Von Landon had been in America a little more than two years. According to the story of the deceased he fled from Russia to escape the consequences of a murder he was supposed to have committed there. He owned vast estates in that country, but was afraid to return and claim them.

Coke Workers Strike.

UNIONTOWN, Pa., March 30.—A general strike of the 10,000 coke workers and miners of the Connellsville region was ordered yesterday by the executive committee of the United Mine Workers, to go into effect next Monday.

Coal Mine Disaster.

WARSAW, March 30.—The shaft of a coal mine at Koszelew collapsed yesterday, causing serious loss of life. Thus far 11 bodies have been recovered and a number of miners have been removed seriously injured.

COXEY COMES BACK.

The Commonwealer Once More at the Head of His Army.

BUT FEW ADDITIONS MADE.

Some New Recruits Are Added but Deserters Are Noted, Leaving the Army Still Less Than One Hundred Men.

COLUMBIANA, O., March 30.—Coxey has rejoined his cohorts. The army is among Populists, and the commonweal is enjoying a big boom. The farmers at Alliance provided three wagonloads of provisions and two of wood. At Leetonia 23 coopers joined the ranks, and in a speech Carl Browne said he was being misrepresented by 40 argus-eyed demons of hell, who followed him around. He meant the reporters, and has given orders to keep newspaper men out of camp.

Three hundred people welcomed the crowd of 108 soldiers to Columbiana, and the citizens provided Johnson's foundry as a camp. Straw beds were provided. Thirty-six recruits, farmers, mechanics and potters from East Liverpool joined the ranks.

This town has a Coxey club with 53 members, of which John Harold is chairman. After seeing the army Harold said that while he sympathized with Coxey's principles, he could not countenance such an array of tramps to force legislation.

Coxey's Recruits Arrested.

SALAM, O., March 30.—Four Pittsburg recruits for Coxey's army were arrested by the town marshal here for robbery. Their story is that they came on here yesterday morning and joined the army last night. They put up at the Salam house and during the night, it is alleged, they robbed the clerk, Ed Skelly, of \$75. The money, in such denominations as he described, was found on them. They assert their innocence. Carl Browne and the other officers of the commonweal, deny they belong to the army. They had a hearing before Mayor Northrop. When the march was taken up for Leetonia 94 men were in line.

Industrial Army in Texas.

AUSTIN, March 30.—Nothing startling has been heard concerning the so-called industrial army at Sierra Blanca. Reports from that place appear to have been greatly exaggerated as to numbers, and the men, with the possible exception of 30 or 40, are said to be veritable tramps on their annual spring march from the sunny south to the north, where they will remain until next winter. Section bosses along the roads offered them work, which they refused, and City Attorney Burgess of El Paso says he saw 85 of them offered work at \$1.50 a day and all refused.

Coxey's Army Stranded.

SPRINGFIELD, Mo., March 30.—Thirty-eight men on their way to join Coxey's army are stranded here. They undertook to board a Frisco train, east, yesterday evening, but the boxcar containing them was switched on a side track and the sheriff with deputies was called to make the men vacate. They appealed to General Manager Morrill of St. Louis for transportation, but this was refused.

Coxey's Lieutenant Fined.

CHICAGO, March 30.—Michael Dempsey, alias Albert Madison, Commander Coxey's Chicago lieutenant, was fined yesterday for carrying concealed weapons. Madison said he had no money and unless his chief came to his assistance would be compelled to take a 20-day sentence in the workhouse. He was locked up.

Suit Against Coxey Withdrawn.

PITTSBURG, March 30.—T. M. Everson of Pittsburgh said yesterday that he had withdrawn the suit for \$500 against General Coxey. "I discovered," said Mr. Everson, "that a certain gentleman in this city owed Mr. Coxey some money, and that I could attach it. This I have done and I will not bother Mr. Coxey as he passes through Pittsburgh."

How They Passed Leetonia.

LEETONIA, O., March 30.—On the road to Leetonia the army of the commonweal marched through mud six inches deep. Leetonia turned out a mounted committee of 12 citizens to welcome the commonweal. Food for 250 was provided, and what the army of 97 could not eat was packed in the wagons.

Contingent of the Army.

DESOTO, Mo., March 30.—Coxey's commonweal army has a detachment in camp here. They arrived 150 strong, and will leave to join the main army. They are a hard looking but orderly crowd.

Wage Conference.

ST. PAUL, March 30.—The conductors of the Great Northern have, together with the trainmen, called in their brotherhood officers for consultation and guidance on the wage question. A long conference was held yesterday, the result of which has not yet been made public.

Colquitt's Successor.

ATLANTA, March 30.—Governor Northen has appointed Speaker Charles E. Crisp to succeed the late Senator Alfred H. Colquitt. Not a word has passed between the governor and the speaker, and the latter's name had not even been presented formally to the governor.

Murderer Attempts Suicide.

CHICAGO, March 30.—Guy T. Ohnsted, who shot Lettercarrier Clifford Wednesday, attempted suicide last night by poison, which he had concealed. He was removed to the hospital and will probably die.

Warmer weather; south winds.

Snow, at this season, is only good to look at in pictures.—Covington Commonwealth.

Some farmers say it is a good fertilizer, but no doubt they prefer using some of the manufactured brands of plant food.

The late Andrew Jackson Stivers, of Ripley, started in life with only 10 cents and died, at the age of seventy-six, worth \$300,000. He made good use of his talents, and his success shows what a man can do who is endowed with pluck and energy.

Four hundred men and boys quit work at the Lippincott Lamp Chimney factory at Alexandria, Ind., this week, because of the refusal of employment to a young man named Coplin, who was discharged from the factory several months ago. Mr. Lippincott says there is no other trouble at hand, and that wages are satisfactory to all concerned. Charge this up to the Wilson bill, Br'er Davis.

The News says that the sensational dispatches sent from Dover to the Cincinnati Enquirer and Post are fakes of the first water. We have suspected this to be the case for some time. The good people of Dover should give the correspondent his "walking papers." If they hesitate, he may soon have them burning a negro at the stake or committing some other atrocity—in his mind—and will then wire it all over the country.

HARPER'S Weekly asserts that protectionism is responsible for all the wild theories set up by Populists and Socialists. Here's the way it puts the matter:

What is the fundamental doctrine of the protectionists? That the State, by constant interference in the way of tariff laws, shall make certain industries profitable.

What is the doctrine of the tariff reformers? That the State shall leave these things to the independent self-reliant activities of the people.

From whom, then, have the Populists and the Socialists learned their "wild theories?" From protectionist doctrines, and not from those of tariff reformers.

The Engineering and Mining Journal has taken pains to gather from reliable sources the statistics in regard to the coal production of the United States in 1893. The facts are invested with peculiar interest just at this time, while the tariff duty on coal is being discussed. The quantity produced last year was 180,565,796 tons. Of this vast product only 4,097,943 tons were exported. Our imports were only 1,241,028 tons,—a mere drop in the bucket, so to speak. The idea that placing this article on the free list would materially injure the coal interests of the United States seems absurd.

Fifteen Years of Experience
Is what Optician Louis Landman has had in the grinding of lenses and correcting defective vision by glasses. For the last two years he has taken special course under the leading oculist of Cincinnati. Having finished lectures for present course he will now be able to possibly fill announced dates in the future. He is at the Central Hotel to-day and to-morrow.

THE PUBLIC SCHOOLS.

Notes and Comments by Mr. George W. Blatterman, County Superintendent.

MURPHYSVILLE—DISTRICT NO. 1.

The trustees are John Worthington, G. B. Galbreath and John Stevenson—a very good board. The teacher is Mr. John Rea. Mr. Rea is becoming a veteran. He is a man of mature years, good education and a very careful and conscientious teacher. I made a long visit and noted carefully the acquirements of the scholars. Their answers to questions propounded were given promptly and in a manner to impress the examiner with their thorough comprehension of the subject embraced in their recitations. The attention of the larger scholars was very good, and they listened to the address of the Superintendent with much interest and intelligent apprehension of his remarks. The scholars in this school appeared to take pleasure in their recitations, and I note especially a class in history of the United States which I do not think can be surpassed. There was some disorder among the small scholars, but this can not always be avoided. I left this school very agreeably impressed. The house is an excellent one, very comfortable, well furnished throughout. A substantial coal house has been built. About all there is needed now is a fence to enclose the grounds, which as they are new present a rough appearance.

WASHINGTON—DISTRICT NO. 17.

The trustees are James Lane, W. R. Gill and Hunter. Teacher, Miss Lizzie Murphy. A good school house is much needed. Some improvements have been made lately, but more are needed, or what would be better a new house. The furniture is very indifferent, but I understand new furniture has been ordered, as well as charts, maps, etc., which will be of great service to the school. Miss Murphy has her scholars under good control, and is a very careful, conscientious teacher. She has not had a large experience yet, but she seems to understand the requirements very thoroughly. Her school was worthy of note for good order.

PITHY PARAGRAPHS.

"It's an ill wind that blows nobody any good." They say it is so windy in Chicago all the time that base ball can not be played there at all.

Had there been half the work done to hang Prendergast that has been done to save his worthless neck and defeat justice, the city of Chicago would not now be disgraced with his miserable presence.

If the court is not cautious, the assassin of Mayor Harrison will add another laurel to his classic brow, while that learned body is engaged in having examinations made as to his eligibility to the gibbet.

Judge Lynch is not so easily hoodwinked as the common run of courts and judges. He is also made of sterner stuff than they and would have disposed of Prendergast long ago, had the case been called for trial in his court.

Coxey's tramps claim they are looking for work. Should the authorities at Washington notify them in advance that a rockpile awaits their advent into that city, not one of them would ever come in sight of the dome of the capitol.

The reason that Coxey's army is so small is very apparent: No honest workman could be gulled by any such chimerical scheme; therefore, it must be made up altogether of rascals, and these gentry are opposed to travelling in large companies, as they are aware how hard it is to get sustenance even when tramping singly or in pairs.

Our sister State, Ohio, must again have credit for originating what there may be of merit in the Coxey movement. While she lays claim to the "motherhood of so many great men, she must also admit the maturity of a great many schemes and issues of a doubtful character. Mormonism had its start on Ohio soil, if we mistake not, and where could a more diabolical institution be found?

An \$8,000 Policy Promptly Paid.

The following is self-explanatory:
MAYSVILLE, KY., March 7, 1894.
Mr. Edward F. Berkeley, Jr., General Agent—Dear Sir: I received to-day through your agents, J. W. Kyle and L. W. Galbraith, check for \$8,000 in payment of policy of my late husband, John B. Poyatz, in The Mutual Life Insurance Company of New York. Please accept my thanks for the promptness and consideration with which The Mutual Life Insurance Company and its agents have treated my claim. Very truly yours,
FANNIE M. POYATZ.

The Mutual Life stands at the head of the list of insurance companies, and you ought to have a policy in it. Consult Mr. Kyle or Mr. Galbraith, agents.

Western and Southern Pays Promptly.
J. L. Todd, Superintendent: Dear Sir—I wish to tender your company my sincere thanks for the settlement of claims under policies 46,397 and 141,083 on the life of my husband, George Landgraf. I desire to express my appreciation of the methods of your company, and recommend the Western and Southern to everyone wanting industrial insurance.

Sincerely yours,
Mrs. PHEBA LANDGRAF.

The Old Friend

And the best friend that never fails you is Simmons Liver Regulator, (the Red Z)—that's what you hear at the mention of this excellent Liver medicine, and people should not be persuaded that anything else will do.

It is the King of Liver Medicines; is better than pills, and takes the place of Quinine and Calomel. It acts directly on the Liver, Kidney and Bowels and gives new life to the whole system. This is the medicine you want. Sold by all Druggists in Liquid, or in Powder to be taken dry, or made into a tea.

Rev. Charles W. Forman.

The friends of Rev. Charles W. Forman, of India, will be glad to learn that he is now convalescent. He was taken seriously ill in December and his life was despaired of for some weeks, but word has been received, within a few days, that his recovery was now probable.

The widow of Dr. John Newton, Mr. Forman's father-in-law, died near London, England, in December. She had long been an inmate of a private insane asylum near that city, she having been rendered insane by a sun stroke received in India many years ago. She was Dr. Newton's second wife, and an English lady.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption, coughs and colds. If you have never used this great cough medicine, one trial will convince you that it has great curative powers in all diseases of the throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at J. J. Wood's drug store. Large bottles 50c. and \$1.

WHEN AND WHERE?

The Date and Place of the Democratic Congressional Convention to Be Fixed Monday.

The members of the Democratic Executive Committee of this Congressional district have been notified to meet in this city next Monday, to fix the date and place of the convention to nominate a candidate to be voted for next November.

The committee meeting will be held at the Central Hotel at 11 o'clock Monday morning. Hon. Charles B. Poyntz, of this city, member of the Board of Railroad Commissioners, is Chairman of the committee.

The convention will be called for some time in May, in all probability, and it is very probable, also, that Maysville will be selected as the place.

Up to the present time Hon. R. K. Hart, of Fleming, is the only out-and-out candidate, and it looks now as if he will have a walkover for the nomination. He has been industriously at work for several months and has his fences in excellent shape. Many others throughout the district have been spoken of as probable candidates, but it is known that most of them, if not all, have given Mr. Hart assurances that they are for him.

Archibald Gardner Assigns.

Mr. Archibald Gardner, of Rectorville, made an assignment Thursday to Mr. H. V. Rigger for the benefit of his creditors. He owes the following debts in this city: Mason County Building Association, \$500; Keith-Schroeder Harness Company, about \$45; H. C. Barkley & Co., about \$210; J. James Wood, about \$40; M. C. Russell & Son, about \$40; Omar Dodson, \$35; George T. Wood, about \$40.

Gardner also owes several firms in Cincinnati. The total liabilities amount to between \$1,200 and \$1,500. His assets are about \$700. Judge Cole & Sons are attorneys for the trustee.

Four Big Successes

Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for consumption, coughs and colds, each to be guaranteed—Electric Bitters, the great remedy for liver, stomach, and kidneys. Bucklen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached herewith will be glad to tell you more. Sold at J. Jas. Wood's drug store.

A prominent lawyer and politician from Carlisle claims that he has it from a reliable source that Congressman Thomas H. Paynter, of Greenup County, will not be a candidate for Appellate Judge in this district.

It is said a number of prominent women in Central Kentucky have signed a petition asking Congress to expel Colonel Breckinridge, and reciting that his presence in Congress is a dishonor to the women of the State.

Rev. M. B. Adams, of Lewisburg, delivered the sermon at the ordination of Rev. C. D. Mitchell, of Dover, this week. The charge to the church was delivered by Rev. Hibbs, of Mayslick, and Rev. Cleon Keys, of Lewisburg, delivered the charge to the pastor. A handsome Bible was presented to Mr. Mitchell by Rev. R. G. Patrick, of this city.

The Sunday School Conference of the Maysville District, M. E. Church, South, will be held at Carlisle next week, beginning Tuesday evening and closing Thursday. Rev. T. W. Watts and Rev. L. Robinson, of this city, Rev. Whitty Waldrop, of Dover, Rev. R. H. Wightman, of Sardis, Rev. T. B. Cook and Rev. J. R. Peeples are all on the programme for addresses.

Covington Post: "Judge William P. Coons, of Augusta, Ky., is at the Emery. He is one of the Kentuckians whom it was expected that President Cleveland would appoint to a paying foreign consulate. Judge Coons says Congressman Paynter will not be a candidate for reelection and that Mason and Bracken counties will support Goebel for Judge of the Court of Appeals; Hart for Congress, and likely Hardin for Governor."

Messrs. Thompson & McAtee received from Pittsburg Thursday a car-load of fencing wire, the second car-load within thirty days. Those in need of wire should avail themselves before this lot is exhausted. This firm on yesterday also loaded sixteen wagons with the celebrated Kentucky Tobacco Fertilizer. No farmer should set a crop without the use of this fertilizer. These gentlemen expect an increase over their sales of last season, notwithstanding the depressed times and low price for tobacco. Farmers should also use it on their tobacco beds. It will make the plants at least two weeks earlier.

COMING VISIT, WEDNESDAY, APRIL 11th.

One Day, Till 3:30 p. m.

DR. APPLEMAN is a graduate of Bellevue Hospital Medical College, New York City, and has had seven years experience in the great hospitals of that city. His wonderful work—

HUNDREDS of CURES,

have caused the old fogey doctors of the State so much uneasiness that for the past two years they have been doing all in their power to stop his practice. Shall the sick remain sick, and the suffering continue to suffer? Yes, says the general practitioner, rather than let Dr. Appleman help you. NO, says Dr. Appleman.

Come to Me and Be Cured if it is in My Power to do it.

John Whittington, 216 N. Walnut street, Maysville, says: "I have tried seven doctors and none have done me any good. Have not worked for six months. I am now able to work after one month of your treatment."

The doctors are astonished, and ask, "What is he doing?" Is that enough? H. H. King, Helena, M. D. Cord, Flemingsburg, Chas. Asbury, Maysville, L. L. Wells, Helena, and fifty others can and do speak of the good Dr. Appleman is doing. Consult this eminent Specialist on his coming visit. He treats

BEHRING SEA QUESTION.

Admiral Walker Receives Some Important Instructions.

WASHINGTON, March 30.—When Admiral John G. Walker sails from San Francisco on April 5 for Honolulu, he will carry with him instructions having a most important bearing on the Behring sea question. All speculation and report to the contrary notwithstanding, Admiral Walker was not selected by the president for this mission on account of any threatening condition of affairs in Hawaii, for the official advice received from that country give no hint of trouble or of a restoration to be expected in the near future, and Admiral Walker's stay at Honolulu will not extend over more than two months at most. Of course, if during his stay trouble should arise, he will be in position to command the situation, but there is no such expectation, and the admiral's mission had to do primarily with the seal question.

The arbitration just concluded provides for a joint protection by the United States and Great Britain over the seal waters, and these two nations are bound to secure, if they can, the co-operation of other interested nations—Russia, Japan and China, and perhaps Germany. The policing of the seal waters, which had previously been a temporary expedient, was made a permanent charge upon the parties to the arbitration, and the difficulties in the execution of the task had been enormously increased by the vast extent of the protected zone fixed by the arbitration, comprising all of the Pacific ocean east of the 180th meridian and north of the 35th parallel and Behring sea.

If the effort to secure the co-operation of Russia and Japan and China should succeed, of which there is every promise, the zone would be still further extended so as to include the western Pacific to the shores of Asia. No such task as this—the policing of a vast ocean—was ever before undertaken, and it became necessary to devise a system by which this could be done effectively, economically and permanently, by the combined action of the nations interested. The first requisite to an effective and economical patrol was the establishment of permanent basis of supplies. There will probably be three of these—San Francisco on the east, Yokohama on the west and Pearl harbor, Hawaii, in the center, all on the lower boundary of the protected zone.

The first two are already within reach, and it is the establishment of the third which has caused Admiral Walker's journey to Hawaii. He will select the best location looking to its adaptability to the ready supply and in a limited way repair of the cruisers engaged in the patrol service, estimate the difficulties to be met in dredging a channel across the bar at the entrance of Pearl harbor, and upon this report to the president will depend the expenditure of the \$250,000, which has for two years been at the disposal of the president for the establishment of naval stations.

INDIAN WAREHOUSE

Likely to Be Moved From New York to Chicago.

WASHINGTON, March 30.—The proposed removal of the Indian warehouse from New York to Chicago has stirred up a hornet's nest in the mercantile community of New York, said Representative Leader Strauss. "It is a blow aimed at the supremacy of New York city as a market that no merchant in the city can permit to go unchallenged. It is a step which interferes with the government's procuring its supplies at bottom rates that no member of congress can, in justice to his trust, permit to pass without a protest. It is clear to New Yorkers that if one has to add to his prices the additional expense involved in specially opening facilities at Chicago for bidding on supplies, the margin of profit does not justify his bidding, and for that reason competition is eliminated and the houses will get higher prices than heretofore. If merchants of large affairs find it necessary to keep a purchasing agency in New York, only false notions of economy should justify the government in closing up its purchasing agency. Let the government continue to invite proposals for the delivery at New York, Chicago and Omaha, but let it not take a step which eliminates the competition of any of the places."

Iron Trade Better.

New York, March 30.—The Iron Age says, regarding the iron and metal trades, that the feeling in the iron trade throughout the country is a slight shade better. Billets are firmer, and can now be bought under \$15.40 at Pittsburgh. Adjustments of freight rates have continued lately, the eastern Pennsylvania furnaces having secured a good reduction to New England points. A little improvement is noted in Chicago in the steel rail business, but on the other hand the eastern works confess freely that they can not see, from present indications, where any business of any consequence for the second half of the year is to come from.

Shot to Death.

St. Louis, March 30.—A special to The Republic from Montgomery, Ala., says: Oliver Jackson, colored, one of the Grant murderers, while en route to Montgomery last night, was taken by a dozen masked men from two deputies at the point of pistols, who shot him to death.

A Powerful Combination.

New Haven, Conn.—Dr. George F. Peterson, one of the most expert surgeons dentists, was adjudged insane and sent to the Middletown insane retreat. He threatened to shoot his family. Cigarettes and cocaine are responsible for his condition.

Will Fight For Their Rights.

CLEVELAND, March 30.—The women at Kent O., who are in favor of equal suffrage, have decided to make a fight for their rights at the polls in the municipal election next Monday.

Consolidation of Packing Interests. CHICAGO, March 30.—It is possible that an important consolidation of packing interests will shortly take place at the Union stockyards in this city.

CUTTING DOWN WAGES.

Polanders Go Out on a Strike and Free Fighting Follows.

HAMMOND, Ind., Feb. 27.—The managers of the National forge and iron works at East Chicago yesterday announced a cut of 19 per cent in the wages of laborers, making them \$1 a day. Two hundred and fifty Poles walked out and held a consultation on the main streets of the town for several hours. There were several fights before 5 o'clock. Some of the foreigners refused to go on a strike and knives were used in some instances. Peter Statalandiski was fearfully gashed on the head and shoulders by the strikers. Others, whose names could not be obtained, are slightly injured.

Word was received that a number of men were on their way from South Chicago to accept the strikers' places at the reduced scale and a mob made for the Fort Wayne depot. No men came, however, and they withdrew quietly.

The puddlers have also been asked to accept a lower scale and many strike. The mechanics have been notified that a cut of 13 1-2 per cent would be made. The plant has been in operation just one week, after an idleness of nearly six months.

The Lakeside nail mill in this city also announced a cut of 20 per cent in the wages of the laborers, bringing the pay down to \$1 a day. The men have accepted the reduction, about 300 men being affected.

The National works will close down unless the men come to an agreement. This would throw about 600 men out of employment.

Multi-Millionaire Married.

NEW YORK, March 30.—Multi-millionaire John H. Flager of the Standard Oil company will soon be married to Miss Alice Mandelick, the contralto soloist of the Church of the Ascension of this city. He first saw the young lady at a concert, and, seeking an introduction, began his wooing, which has terminated in an engagement. He is a cousin of Henry M. Flager of the Standard Oil company, and, while not as wealthy as the controlling magnate, he is worth \$15,000,000.

Walker's Mission to Honolulu.

WASHINGTON, March 30.—Secretary Gresham stated that Admiral Walker's mission to the Hawaiian Islands had nothing to do with the establishment of a naval depot at Pearl harbor, but that dispatches had been received from Mr. Willis indicating that an outbreak might occur at Honolulu at any time which would require the presence of a cool, shrewd and determined man to look after the interests of the United States.

Speaker Crisp Appointed Senator. WASHINGTON, March 30.—It was after midnight when Speaker Crisp received notice of his appointment as senator from Georgia. He was much surprised, as the offer was unexpected. His first inclination was to decline, but at 1 o'clock wired the governor that he would hold his answer in abeyance until he could consult with political friends and associates.

Killed His Wife.

HELENA, Mont., March 30.—R. McManis of Livingston shot and killed his wife yesterday at that place and then cut his own throat from ear to ear with a razor. McManis was a railroad brakeman, 24 years old, and his wife was a handsome woman of 18. He had been out of work for some time, was despondent and they had not lived happily together. They leave a 6-months-old babe.

Iowa and Woman Suffrage.

DES MOINES, March 30.—The house yesterday passed the woman suffrage bill, giving women the right to vote for city, town and school officers, and on the question of issuing bonds.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

It Removes Dandruff, Cleans the Scalp, Restores the Hair, Cures Eczema.

MAYSLEICK.

Winter still lingers in the lap of spring. Mrs. Steve Ballinger has been quite sick for several days.

The fruit and all kinds of vegetation is laid aside for the present.

Joel Layman is confined to his home by sickness. Dr. Kelley is attending him.

W. H. Arthur has been on the sick list for a few days. Nothing serious, we hope.

The mercury has been at freezing point and below for a week. Ice one inch thick.

That old ground hog! What a pity CHIT didn't find him out in Choctaw. The Sissou boys are after him.

Some more of the beautiful snow fell Wednesday night: three inches deep and still snowing at this writing.

The pastor, Rev. F. M. Tinder, who went to Leesburg for his family, has not returned home, and we had no preaching at the Christian Church last Sunday.

SECTION 1,044, E. R. K. of P., of this city, has elected the following officers: President—M. F. Marsh. Vice President—W. R. Archdeacon. Secretary—W. T. Martini. Medical Examiner—Dr. J. H. Samuel.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.
